

SILENCED SMARTRIG D7C SURFACE DRILL RIGS

TECHNICAL SPECIFICATION

With its high shift capacity, low energy consumption and innovative modules that improve productivity, we can safely say that Silenced SmartRig ROC D7C/D9C is a ground-breaking rig. The options available make it one of the quietest running rigs of its kind, with a noise level of approx. 10dB below other rigs on the market, and greatly reduced setup time, as well as efficient high precision drilling – under any conditions.

Main benefits

- Can drill closer to urban areas
- Environmental friendly
- Higher productivity
